A MESSAGE FROM GOD BY CHAPLAIN SCHNICK

If you were to receive a message signed by God you would be startled and perhaps highly skeptical. Yet that is exactly what we have in the Bible: God's Message. God has spoken to us in the things He has created. He has spoken to us in experience, both in history and personally. Almost 2,000 years ago He spoke to us through Jesus Christ. Some listened, believed, and followed Christ. Some turned away disbelieving.

Much of the record of how God spoke to us has been preserved in the Bible. The explanation of how man was created, how God expects him to act and what his future is to be is contained in the Bible.

But all the good that is in the Bible will never be yours unless you read it. It is a dead book until it is opened, read, believed and obeyed. It is not what we do not know about the Bible that bothers some of us; it is what we do know and fail to practice that gives us trouble.

With so much fear, insecurity, hatred and darkness around us, we need the light of God's Word, the Bible, to show us the way. The Psalmist said, "The entrance of Thy words giveth light."
(Psalms 119:130)

If you do not have a New Testament, we have one available for you, free of charge. We want you to read the Bible and make the message a personal one.
